Company Profile / Statement 公司简介

We are a small practice dedicated to architectural design of unique remote Hotels and Resorts for leisure, Hot Spring Complex in the heart of nature, and the like, and landscape design. We undertake projects of medium size, 20,000 sq meters in average, in an almost one by one basis, taking great responsibility for creating the robust and cultural environment of the client, using local workmanship and materials, and natural or low demanding energy systems to respond to the building we design, to make what is unique for good in the case, to present in architecture.

作为一家规模不大的建筑设计公司，我们的主要业务范围包括远离市区和远的酒店和休闲度假区，建于自然环境内的温泉度假区和风景设计等。承接项目多为平均面积为20,000平方米中型项目。每个项目只专注于一个项目，以保护自然和人文环境为己任，将当地的技术、物料和天然低耗能源系统融入设计的建筑中，营造出独一无二的效果。
